The motion unanimously passed.

Agenda Item #12: SOCIAL SERVICES - MONTHLY ADMINISTRATIVE UPDATE:

Algernon McKenzie, Social Services Director, delivered the following Monthly Administrative Update.

On December 2, 2019 we started taking applications for the Low Income Energy Assistance Program (LIEAP). This program provides a one-time payment to eligible households to help with their heating costs. During the month of December, the State targets the senior population; 60 or older. Beginning January 2, 2020 all other households may apply for this assistance. Approved applicants will receive an allotment of \$300, \$400 or \$500 based on household size. These payments are paid directly to the heating provider.

On December 10, 2019 we had a visit from our Adult Protective Services Representative. During the visit, we were given changes in Adult Protective Services. She also reviewed our program growth measures for Adult Services. We are on target with completing initiation of referrals in Adult Protective Services. Following our discussion, she reviewed some cases and provided feedback to the Supervisor.

On December 12, 2019 I attended the Director's Executive Board meeting in Raleigh, North Carolina. During the meeting, we received information about legislators returning to Raleigh on January 14, 2020 and some of the possible bills that may be acted on. There is a possibility they may revisit the State budget for 2020.

Debra Farrington, from the Division of Health Benefits, provided an update of Medicaid Managed Care. She stated Managed Care will happen at some point, but there is not a definite date. The State has mailed out notices to all Medicaid beneficiaries as of December 6, 2019. They are continuing to design the plans for behavioral and physical health.

We also received reports from the various committees about changes coming in some programs that are administered by local DSS agencies.

Lastly, our association continues to advocate for funding for Adult Services statewide, as this area receives little funding to assist counties with its Adult population. The needs of adults are continuing to increase.

On December 18, 2019 we held our annual agency Christmas Luncheon. It was well attended by staff, County Commissioners and County Administrative Staff.

A special thanks goes out to the Whiteville Rotary Club and others who donated food, toys and funds to our needy families during the holiday season. We look forward to continuing to serve the citizens of our county in 2020.

News/Updates/Vacancies

Adult and Family & Children's Medicaid:

Medicaid Transformation has been suspended due to the budget. The State had provided each county with an Enrollment Coordinator that was answering questions for clients and helping them enroll in a Health Insurance Plan, however once it was suspended this eliminated our Coordinator the very next week and the help of answering questions about the process. As of January, they have not set a new date for the Transformation process to resume. The Medicaid Team received the Local County Auditing Reports for both Medicaid Teams. Sixty cases were reviewed and the Local Auditor Reported "Significant Deficiencies". In my opinion, "Significant Deficiencies" would mean the county was having to repay the state for cases that were put on Medicaid in error by workers; this in my opinion would be significant deficiencies. Cases that were cited were technical errors that did not make the client ineligible for Medicaid. One case out of sixty that was read, the caseworker did not act timely to close their Medicaid due to them not cooperating with Child Support and that could be a money error however the amount is under the questionable threshold and until the results are escalated to the State, we will not know if we will have to repay that one month of eligibility. The unclear documentation errors are documented due to workers having to work paper files then turn around and enter everything into NCFAST; which is double the work and with the staff turnover that DSS has; workers are carrying double caseloads at times and rushing to get the case approved or denied timely and are not documenting in NCFAST properly how the eligibility was established. Columbus County, unlike a lot of other counties is not paperless and some workers do not have scanners so the worker completes the verifications on paper and then has to enter it into NCFAST. NCFAST could make our county paperless if all workers had scanners to be able to scan their verifications into NCFAST and the ones that the intake workers do have are so slow and can only scan one piece of paper at the time. To improve our process so any auditor reviewing our cases in NCFAST, we are developing a newly created documentation policy that will remind workers to enter the evidence into NCFAST properly and with complete documentation explanations within the system. All audits that will be completed by the Local Auditors or State Auditors will be reviewed within NCFAST and not by viewing our paper records. We have 2 workers in training and 1 vacancy on the Adult Team. The Medicaid Team also passed our monthly compliance report card.

Child Support and Paralegal:

Background checks and finger printings have been completed on all workers including new workers however all results for our Child Support staff have not been received back due to a backlog with the company all counties are sending the checks to. Child Support was only allowed two court days in December and they prepared 256 cases. The Paralegal prepared 226 Orders and reviewed 24 Orders the Attorney prepared for a total of 250 Orders for the month of December. The new procedures implemented by our Judge and the State for proof of ability to pay from the absent parent has now shifted more duties to the workers and will lower our collection rate which will in turn reduce the incentive payments that come back to Columbus County. The Judge's implementations do not line up with Child Support policy and it has been a struggle, however we are working with her and the Child Support Attorney to resolve and improve this serious issue. This team is fully staffed but still have 2 agents in training.

Food and Nutrition:

The Food and Nutrition Team continues to meet their monthly timeliness compliance rate. There are 4 workers that are still in training and 100% of their cases are having to be second party reviewed by the supervisors and leadworkers. They are also second party reviewing all cases that have 5 or more people in the household for accuracy. Columbus County currently has 127 active ABAWDs (Able-Bodied Adults Without Dependents); those that are physically able to work or volunteer at least 20 hours per week. We also had 28 participants that were terminated from the program due to not meeting the required work/volunteer hours. This team is fully staffed but still have those that are in training as stated above.

Work First Cash/Medicaid Transportation/Interpreter/Maintenance and Housekeeping/Deputy:

1. WorkFirst/Cash continues to meet their compliance timeframes. These 2 workers complete the Intake/Processing and Reviews of the WorkFirst Cash piece and then make referrals to the WorkFirst Employment Team that works with those clients that have to meet work requirements.
2. Even though Medicaid Transformation has been suspended, transportation has to continue to send information about the clients that participate in the program to the State for forwarding to our Regions 5 Health Plans. We continue to have a vacancy on this team however we have interviewed and have recommended a candidate and are awaiting approval.
3. The work of our Maintenance, Housekeeping, Deputy and Interpreter has increased with the beginning of the implementation of taking applications for our Energy Programs.

HUMAN SERVICES BOARD REPORT
Melinda H. Lane, Program Manager
Vacancies/Updates/News for December 2019

Intake/Investigation/Assessment:

The Intake/Investigation/Assessment Unit continues to be fully staffed. With the ever-changing policy, the increased demands on workers, the limited support provided from the state, and the growing caseloads with growing complexities, workers occasionally demonstrate symptoms of burnout which can affect our productivity and ability to meet state standards. This Unit continues to assist the other Units of Child Welfare in areas needed as much as possible due to vacancies. This Unit has just received the completed and approved Program Development Plan from the September State Review and will begin implementing needed changes in an effort to more fully meet state standards.

In-Home Services:

The In-Home Services Unit now has two vacancies. One Social Worker was recently hired and interviews are scheduled in an effort to fill the remaining positions. The majority of the applicants have shown to have little to no experience necessary for the positions and most do not have Social Work degrees. With the ever-changing policy, the increased demands on workers, the limited support provided from the state, and the growing caseloads with growing complexities, workers occasionally demonstrate symptoms of burnout which can affect our productivity and ability to meet state standards. This Unit continues to assist the other Units of Child Welfare in areas needed as much as possible. This Unit has just received the completed and approved Program Development Plan from the September State Review and will begin implementing needed changes in an effort to more fully meet state standards.

Foster Care:

The Foster Care/Adoptions Unit continues to have two vacancies and one Social Worker is currently on medical leave. Interviews are scheduled in an effort to fill the remaining positions. The majority of the applicants have shown to have little to no experience necessary for the positions and most do not have Social Work degrees. With the ever-changing policy, the increased demands on workers, the limited support provided from the state, and the growing caseloads with growing complexities, workers occasionally demonstrate symptoms of burnout which can affect our productivity and ability to meet state standards. This Unit has been receiving assistance from other Child Welfare Units due to the vacancies to ensure state mandated visits with children in foster care are met. This Unit has just received the completed and approved Program Development Plan from the September State Review and will begin implementing needed changes in an effort to more fully meet state standards.

Transitional Unit:

The Transitional unit continues to have three vacancies. Interviews are now being scheduled in an effort to fill those positions since the Supervisor is now back from medical leave. With the ever-changing policy, the increased demands on workers, the limited support provided from the state, and the growing caseloads with growing complexities, workers occasionally demonstrate symptoms of burnout which can affect our productivity and ability to meet state standards. This Unit has just received the completed and approved Program Development Plan from the September State Review and will begin implementing needed changes in an effort to more fully meet state standards.

Adult Services:

The Adult Services Unit continues to be fully staffed. This Unit continues to encounter more and more issues with homeless adults and adults with mental health issues which creates other problems because of the slow response time of mental health agencies and the lack of resources for this population. A tremendous amount of time is being dedicated to assisting those adults with mental health issues that are unable to be independent, unable to manage their own funds, etc. This Unit is attempting to assist Child Welfare with covering Intake and making some contacts as appropriate.

Work First Employment:

This Unit continues to be fully staffed. This Unit continues to assist with 200% and Emergency Assistance for those eligible. Two of the staff members are currently assisting with screening the Crisis Intervention Program applicants and the other two staff members are currently assisting with covering Intake when needed.

Child Day Care:

The Child Day Care Unit continues to work within the NCFAST system dealing with daily issues and updates. The waiting list continues to grow which is a concern for staff, but this Unit continues to monitor the list and occasionally works the list in an attempt to decrease the list by small amounts. Caseloads are being examined to determine the best use of the vacant position.

Program Integrity:

Program Integrity continues to work hard to get caught up with program integrity duties and cases. Program Integrity continues to work within NCFAST with issues regarding data that does not always correctly reflects the actual work of staff. The Crisis Intervention Program(CIP) continues in earnest for the 2019-2020 year. For the month of December, 97 applications were processed for the Crisis Intervention Program (CIP) with 95 approved and 2 denied. And 496 applications were processed for the Low Income Energy Assistance Program (LIEAP) with 466 approved and 30 denied.
