#### MEMORANDUM OF UNDERSTANDING

BETWEEN

THE N. C. AGRICULTURAL EXTENSION SERVICE OF N. C. STATE COLLEGE

AND

THE BOARD OF COUNTY COMMISSIONERS

#### Columbus County

1. The North Carolina Agricultural Extension Service was established as a part of the School of Agriculture of North Carolina State College by Federal and State legislation for the specific purpose of "extending" the educational service of the College to the people of the State on subjects relating to agriculture and home economics. It is the principal means by which the findings of research in agriculture and home economics are carried and interpreted to the people.

This legislation also provided that Cooperative Extension work be a partnership between three levels of government -- Federal, state, and County -- with these levels being officially represented by the U. S. Department of Agriculture, North Carolina State College, and the County Boards of Commissioners. By this arrangement County Extension Agents are joint employees of the N. C. Agricultural Extension Service and the Board of County Commissioners. They are also official representatives of the United States Department of Agriculture.

To assure maximum benefits of this educational service to the people it is important that the elected and appointed officials of each level of government have a clear understanding of their respective responsibilities and the relationships in the conduct of this work. It is to this end that the following description of responsibilities and relationships was developed.

#### II. Responsibilities and Relationships:

A. The North Carolina Agricultural Extension Service will:

1. Provide the State proportionate share of salaries for the County Extension personnel. The salaries of all workers will be determined jointly by the Agricultural Extension Service and County Boards of

474  
Commissioners, and the proportionate share paid by the State and by the County will be determined in accordance with the formula prepared by the Agricultural Extension Service.

2. Provide funds for official travel necessary in the conduct of Extension work to the extent that funds are available and for purposes authorized by State and Federal policies.
3. Accept responsibility for:
  - a. Establishing minimum requirements and qualifications for employment in Extension work.
  - b. Receiving and examining applications for employment.
  - c. Interviewing and otherwise investigating applicants to determine their qualifications and availability.
  - d. Recommending to the County Commissioners, for their consideration, qualifies applicants for appointment to vacant or new Extension positions.
4. Prepare and submit an annual budget request to the Board of County Commissioners for the County's proportionate share of funds as set forth in the formula prior to the beginning of each fiscal year.
5. Provide the County Extension agents with official envelopes and stationery, bulletins, leaflets, and other publications.
6. Accept responsibility for administration and supervision of Extension programs and personnel.
7. Provide a staff of specialists to continuously train agents in technology and other changes affecting agriculture and home economics and assist them in the conduct of their work.
8. Provide individual on-the-job training by the Extension specialists and district agents and also plan and arrange for such training programs and activities as are deemed advisable.

B. The Board of County Commissioners will:

1. Provide the County's proportionate share of salaries for the County Extension personnel. The salaries of all workers will be determined jointly by the Board of County Commissioners and the North Carolina Agricultural Extension Service, and the proportionate share paid by the County and by the Agricultural Extension Service will be determined in accordance with the formula prepared by the Agricultural Extension Service.
2. Provide the office space and equipment, utilities, telephones, office supplies, and demonstration materials needed for efficient operation of the County Extension Office and program.
3. Review and consider the annual budget request from the Extension Service and take appropriate action prior to June 15 of each fiscal year.
4. Confer and advise with the district and county Extension agents and County Extension Advisory Board relative to local problems, programs, and activities.

C. The North Carolina Agricultural Extension Service and the Board of County Commissioners mutually agree:

1. That all County Extension appointments and separations are to be worked out jointly by the North Carolina Agricultural Extension Service and The Board of County Commissioners, and that no official action will be taken by either party prior to discussion of the matter with the other party.
2. That the policies established by the State of North Carolina and followed by the College be used as a guide in granting annual, sick, civil, and military leave for County Extension personnel.
3. That the policies of North Carolina State College relative to the classification of employees will apply to all County Extension workers; therefore, they will not be classified under a county classification system.
4. That County Extension agents be guided by County policies relative to office hours and holidays.

475

We are in agreement with the above description of the responsibilities and relationships, and that this memorandum of understanding may be reviewed at any time but shall be reviewed once each four years.
