The following resolution was introduced regarding research on nutgrass control and was unanimously adopted:

RESOLUTION FOR ACCELERATED RESEARCH TO BE DONE ON NUTGRASS CONTROL

It has been brought to our attention from farmers throughout Columbus County and verified by agricultural representatives in the county that nutgrass is spreading rapidly over Columbus County and becoming a serious pest, particularly to our tobacco and peanut growers, and

WHEREAS nutgrass has become a problem that local agricultural authorities have not been able to furnish the answer to, and

WHEREAS nutgrass is rapidly spreading in the fields of Columbus County to the point that it has become a serious pest, particularly in some fields, and

WHEREAS tobacco and row crop farmers are seriously affected by nutgrass in their fields, and it is costing Columbus County farmers a large sum of money to try to keep their fields clean and to no avail; Now, Therefore be it

RESOLVED, That we the Board of County Commissioners of Columbus County, respectfully request an accelerated research program to assist farmers throughout Columbus County and the state of North Carolina to eradicate nutgrass from their farms.

BE IT FURTHER RESOLVED, That we are extremely appreciative and in full accord with the research program and have great faith in it, and we realize that our farmers largely depend on their livelihood from the research program. We believe that an accelerated program on nutgrass control would be extremely beneficial to Columbus County farmers as well as farmers throughout most of North Carolina.

This resolution unanimously passed Board of County Commissioners this 3rd day of June, 1963.
