The following business was transacted:

Upon motion made and seconded the minutes of the January 5th meeting was read and approved.

Ordered: that the Clerk be authorized to charge off from the General County Fund, outstanding Jury checks in the amount of \$50.45 and Insolvents checks in the amount of \$19.42 for the years 1966-1967.

John Byrd, Dog Warden, and Dr. D. W. Pittman, local Veterinarian, stated due to increasing cost of drugs, they would like to request the Board of Commissioners to increase the fee for the county wide vaccination of dogs from \$1.00 to \$2.00. Dr. Pittman stated this vaccination is for a three year period and that he and other local veterinarians, and Dr. J. R. Black, Health Director, agreed there should be an increase in this fee. Chairman Watts stated due to the absence of two Board members, the decision on this increase would be made the following first Monday, February 2, 1970.

Alice S. Wright, Director of Social Services, asked the Board to approve an increase in the AFDC Budget of \$1164 to enable the State to restore the recipients checks to 86%. At the present time, AFDC recipient checks have been cut to 80%. Mrs. Wright stated there would be little activity in the present M.A.A. Fund with the Medicaid program now in effect and the \$1164 needed by the County could be borrowed from the M.A.A. account for this fiscal year. Upon motion of Commissioner Burns, seconded by Commissioner Gore and unanimously adopted that the Chairman, Mr. Watts, be authorized to sign appropriate documents stating the AFDC Budget will be increased \$1164 if needed to supply the county's part to

restore AFDC recipient checks from the present 80% to 86%. This amount is to be borrowed from the M.A.A. Fund.

Upon motion the meeting adjourned.
