The Special Use permit application can be found on the Columbus County Planning Department website found at columbusco.org. Such application shall include all of the requirements pertaining to this Ordinance including any proposed site plans, the names and addresses of all adjacent property owners including property owners that are directly across from any public or private street or roadway, and the requisite fee established by the Columbus County Planning Department Fee Schedule. After a public hearing, the Columbus County Planning Board shall forward a recommendation to the Columbus County Board of Adjustment for their consideration.

- 1. Pre-Development Conference: All applicants shall meet with the Planning Director to discuss the permit application, proposed site plans, and additional information needed for approval process.
- 2. The Technical Review Committee shall be given ten (10) days to review and respond with comments. The Technical Review Committee shall forward their comments, if any, to the Planning Director. The Planning Director shall consider any reasonable request submitted by the committee member in writing which will be reviewed by the Planning Director and/or the Planning Board Chairman, who then shall grant or deny the request. The applicant may then submit a revised site plan to the Planning Department at least five (5) days prior to the public hearing before the Planning Board.
- 3. Prior to approval of the site plan, the Planning Director may consult with other qualified personnel for assistance to determine if the application meets the requirements of this Ordinance.

Section II. Planning Board Action

- 1. After the Pre-Development Conference, the Planning Director shall set a date and time for a public hearing before the Planning Board. Notice of the public hearing shall be given once a week for two successive calendar weeks in a local newspaper of general circulation, said notice to be published the first time at least ten (10) days, but not more than twenty-five (25) days, prior to the date fixed for said public hearing. The posting shall also include the phone number of the Planning Department so that more information can be provided upon request.
- 2. The Planning Board shall consider the application, the comments of the applicant, and any comments of any interested persons attending the public hearing. In conducting the public hearing, the Planning Board shall follow the same rules and procedures as employed in the conduct of public hearings held before the Columbus County Board of Commissioners. Following the public hearing, the Planning Board shall forward a recommendation to grant, deny, or grant with conditions the Special Use permit to the Board of Adjustment.

Impermissible conflicts include, but are not limited to, a member having a fixed opinion prior to hearing the matter that is not susceptible to change, undisclosed ex parte communications, a close familial, business, or other associational relationship with an affected person, or a financial interest in the outcome of the matter. If an objection is raised to a member's participation and that member does not recuse himself/herself, the remaining members shall by majority vote rule on the objection. Vacant positions on the Planning Board and members who are disqualified from voting on the matter shall not be considered "members of the Board" for calculation of the requisite majority.

In making their recommendation to the Board of Adjustment, the Planning Board shall consider the following criteria:
 - A. That the use will not materially endanger the public health or safety, if located according to the plan submitted and approved;
 - B. That the use meets all required conditions and specifications;
 - C. That the use will not substantially injure the value of adjoining or abutting property, or that the use is a public necessity; and
 - D. That the location and character of the use, if developed according to the plan as submitted and approved, will be in harmony with the area in which it is to be located and in general conformity with the Columbus County Land Use Plan.

Based above criteria, the Planning Board shall then forward a recommendation to the Board of Adjustment regarding the Special Use Permit.

The posting shall also include the phone number of the Planning Department so that more information can be provided upon request.
- 3. The Planning Director shall provide to the Board of Adjustment, copies of the application, site plans, reports and any other written administrative material relevant to the evidentiary hearing. The administrative materials may be submitted at the hearing or distributed, in written or electronic form, to the Board prior to the evidentiary hearing. At the same time a copy of the administrative materials shall be submitted to the applicant or landowner, if he is not the applicant. The administrative materials shall become part of the hearing record. Any objections to the inclusion or exclusion of administrative materials shall be made at the hearing.
- 4. At the evidentiary hearing the applicant, the owner of the subject property, local government, adjacent landowners and any other interested person who has relevant evidence to offer, shall have the right to present evidence and participate in the hearing.
- 5. At the evidentiary hearing, the Board of Adjustment shall consider the application and other relevant evidence, including sworn testimony and exhibits and may deny,

- grant or grant with reasonable and appropriate conditions the Special Use permit. In conducting the evidentiary hearing, the Board of Adjustment shall follow quasi-judicial procedures as set forth in NCGS 153A and 160A.
- 6. The concurring vote of four-fifths of the Board shall be necessary to grant a variance. A majority of the members of the Board shall be required to decide any other quasijudicial matter or to determine an appeal made in the nature of certiorari. Vacant positions on the Board and members who are disqualified from voting on the matter shall not be considered "members of the Board" for calculation of the requisite majority if there are no qualified alternates available to take the place of such members.
- 7. No Board of Adjustment member shall participate in or vote on any quasi-judicial matter in a manner that would violate affected persons' constitutional rights to an impartial decision maker. Impermissible conflicts include, but are not limited to, a member having a fixed opinion prior to hearing the matter that is not susceptible to change, undisclosed ex parte communications, a close familial, business, or other associational relationship with an affected person, or a financial interest in the outcome of the matter. If an objection is raised to a member's participation and that member does not recuse himself/herself, the remaining members shall by majority vote rule on the objection.
- 8. In rendering a decision on a Special Use permit, the Board of Adjustment shall consider the following conditions for each proposed use:
 - A. Whether or not the use materially endangers the public health or safety;
 - B. Whether or not the use meets all required conditions and specifications;
 - C. Whether or not the use will substantially injure the value of adjoining or abutting property or will be a public necessity; and
 - D. Whether or not the location and character of the use, will be in harmony with the area in which it is located and be in general conformity with the Columbus County Land Use Plan.
- 9. Every quasi-judicial decision shall be based upon competent, material, and substantial evidence in the record. Each quasi-judicial decision shall be reduced to writing reflecting the Board's determination of any contested facts and their application to the applicable standards. A quasi-judicial decision is effective upon filing the written decision with the Clerk to the Board of Commissioners. The decision of the Board shall be delivered within a reasonable time by personal delivery, electronic mail, or by first class mail to the applicant, property owner, and to any other person who has submitted a written request for copy prior to the date the decision becomes effective.
- 10. In granting the Special Use Permit the Board of Adjustment may designate conditions which, in its opinion, assure that the use in its proposed location will be harmonious with the area and with the spirit of this Ordinance and in keeping with the public welfare. All such additional conditions shall be entered in the minutes of the hearing at which the Special Use Permit is granted, on the Special Use Permit itself, and on the approved plans submitted therewith. All specific conditions shall run with the land and shall be binding on the original applicants for the Special Use permit, their heirs, successors and assigns. The Special Use permit shall be kept on file in the office of the Planning Department, including in the Planning Department's electronic data files.

Section IV. Denials and Appeals

If the Board of Adjustment denies the Special Use Permit, the Board shall enter the reason for their action in the minutes of the meeting at which the action is taken.

No appeal may be taken from the action of the Board of Adjustment in granting or denying

a Special Use permit except through the Columbus County Superior Court within thirty (30) days.

If denied, the applicant must wait for a period of six (6) months before a new application can be submitted.

Section V. Failure to Comply/Notification of Adjacent Property Owners

In the event of failure to comply with the plans approved by the Board of Adjustment, or with any other conditions imposed upon the Special Use permit, the permit shall thereupon immediately become void and of no effect. No building permits for further construction or certificates of occupancy under this Special Use permit shall be issued, and all completed structures shall be regarded as nonconforming uses subject to the provisions of this Ordinance. In such cases, owners of adjoining property shall be notified that the Special Use permit is no longer in effect.

Section VI. Expiration of Special Use Permit

In any case where a Special Use permit has not been exercised within the time limit set by the Board of Adjustment, or within one year if no specific time limit has been set, then without further action, the permit shall be null and void. "Exercised" as set forth in this section shall mean that binding contracts for the construction of the main building have been let; or in absence of contracts that the main building is under construction to a substantial degree; or that pre-requisite conditions involving substantial investment are contracted for, in substantial development; or completed (sewerage, drainage, etc.). When construction is not a part of the use, "exercised" shall mean that the use is in operation in compliance with the conditions set forth in the permit.

Section VII. Modifications of Plans

Where plans are required to be submitted and approved as part of the application for a Special Use permit, the Board of Adjustment may authorize modifications of the original plans.

Section VIII. General Requirements for Special Uses

A site plan must be submitted with the Special Use Permit Application and may be prepared by the applicant. The site plan must include the following:

- 2. A vegetative buffer consisting of either one or two rows of staggered evergreen vegetation is required as per the vegetative buffer design specification sheet available from the Columbus County Planning Department. A vegetative buffer may be constructed using any of those evergreen varieties identified or an approved equivalent. A staggered two row buffer is to be located between any solar farm fencing and an adjacent highway. Similarly, a two row vegetative buffer is required to screen the farm from the direct view of adjacent residential housing units. Where required, a single row vegetative buffer is required along perimeter fencing as noted in item three (3) below.
- 3. A vegetative buffer consisting of one row of evergreen vegetation is required along all perimeter areas not covered under item number 2 above (i.e. where two row vegetative buffering is called for) but with the following exception(s):
 - a. Where a natural vegetative buffer already exists on the property and which allows for said natural vegetative buffer to remain and be maintained in an undisturbed natural state which provides adequate screening to adjacent parcels on the side or sides, or along the back fence line of the solar farm.
 - b. When a solar farm is located over 250 feet from an adjacent highway such that only minimal vegetative screening is needed to prevent the farm from becoming a distraction to drivers on the adjacent highway or to adjacent landowners.
- 4. Vegetative buffers may be located within the required setback areas.
- 5. The maximum height for a ground mounted solar system under these guidelines is 15 feet above ground level.
- 6. General Standards:

 - c. Shall be removed, at the property owner's expense, or at the solar farm owner's expense within one hundred and eighty (180) days of determination by the Planning Department that the facility is no longer being maintained in an operable state of good repair or is no longer supplying solar power.
 - d. All solar farms must be maintained in a reasonable fashion with regard to the facility grounds such that the facility does not become a public eyesore or contain undergrowth which may harbor vermin due to the excessive length of grass and other vegetation located inside or outside of the perimeter fencing.
