#### Agenda Item #8: <u>SOCIAL SERVICES - MONTHLY ADMINISTRATIVE UPDATE</u>:

Algernon McKenzie. Social Services Director, delivered the following Social Services Monthly Administrative Update.

On September 7, 2016 we held our monthly agency staff meeting. During the meeting, staff was informed about the shelter schedule for Hermine. They were reminded this is hurricane season and we need to be prepared. All DSS employees are required to work. Staff were encouraged to update phone numbers and addresses.

Staff was informed of the Social Services Institute, which will be held October 19 - 21, 2016 in Hickory, North Carolina. Interested staff should let their Supervisor know as soon as possible, so registration can be completed. There will be workshops and training for all program areas. The Director's Association will have a meeting on that Friday morning.

I reminded staff about the importance of good customer service. We need to be mindful of how we treat people when they come into the office for service and when they call for information. Employees need to be respectful of each other and work together to get the work done.

On September 14, 2016 the Child Welfare review staff came back to our agency to review some records and check on our progress with our program development plan. The Program Manager, Child Welfare Supervisors and I, met with the reviewers and discussed the areas of improvement and areas we continue to work on with records and our plan. During this review, we identified continuous work that needs to be done on timely documentation of case activities and agency access to case documentation. The reviewers also expressed concerns with the staffing patterns and the lack of administrative support, such as Supervisors and Program Managers taking on additional duties; for example, criminal checks, data entry and case management. We also discussed the need for additional staff and high turnover, which makes it difficult for us to adequately provide the services required by policy to children and families in a timely and efficient manner. Therefore, the reviewers have made some recommendations to us to help us improve our services. We will use the information from their report to update our program improvement plan.

During the review, they also identified several strengths and areas we have made progress and achieved in our Child Welfare program in the past months.

After reviewing records, the team met with the Supervisors, Program Manager, Social Workers and I to talk about the review process and answer questions. This was a very good experience for the staff to hear from the reviewers face to face.

On September 20, 2016 our consultant for Child Welfare started. During the month, I met with Mr. James Clark, Program Manager, Supervisors and the Child Welfare staff. We have been reviewing our program improvement plan and the information provided from the record review. We are looking at ways to improve our documentation, enhance case staffing, meet policy requirements and ensure safety risks are reduced to children. We are reviewing our organizational structure, technology, funding needs and our turnover, to see how this is impacting our ability to complete the required Federal and State work standards. We are also reviewing the staffing requirements identified by the State for Supervisors and Social Workers.

We are exploring ways to reduce some duties of our Child Welfare Supervisors to improve their ability to review case records and complete required case staffings with Social Workers.

We recently got approval for most of the Child Welfare staff to complete State criminal record checks and are training them to use the system. This will help us ensure the required checks are completed timely. I have also been in contact with our Sheriff to coordinate getting access to the national criminal record checks.

During the month, our consultant has been talking to Child Welfare staff and has been attending our weekly case staffings in an effort to get an understanding of our decision making practices and offer any suggestions he may have. He has also had an opportunity to speak with our Division Director, some review staff and our Child Protective Services representative via a conference call.

We are continuing to work on the issues sited with our Child Welfare program.

On September 28, 2016 I met with all agency Supervisors. During this meeting, Supervisors were given information about the new state insurance plan the County will be using as of January 2017.

Supervisors were reminded agency staff applying for benefits within the agency, should contact the Supervisor of that program or the Program Manager to make an application for benefits. I also reminded them travel requests need to be completed two weeks prior to travel and all receipts must be turned in upon return.

We discussed the county purchase policy; which limits purchases over \$200 without an approved purchase order.

# News/Updates/Vacancies

# Work First/Cash///Transportation////Interpreter////Maintenance & Deputy:

- Caseloads for Work First keeps dwindling down. We currently have 165 clients receiving on this program.
- The pilot testing for Transportation in NCFAST is presently being tested by a few counties. Webinars have been provided for Columbus County Transportation to instruct them on how to put their claims directly in the system to get paid weekly directly from the State if they choose to bill weekly. The counties have been notified of upcoming webinars for us to learn our part of the payment procedures. We are anticipating January 2017 for us to begin implementing Transportation in NCFAST.
- Housekeeping remains busy keeping the agency clean. Maintenance stays busy keeping vehicles checked, mail brought to and from the post office, conference rooms prepared for meetings and going to and from our storage building getting boxes of files that we are completely shredding due to their inactivity of 10 years.
- It has been calm for the deputy lately however he will be going full blast with the energy programs beginning soon.

# Adult Medicaid:

The Long Term Care unit of Adult Medicaid are still struggling to get overdue applications timely. All workers do not know all the policy of this program and it makes it hard for other workers to help get them caught up. The review team of Adult Medicaid struggles with keeping their recerts timely. With 5,000 SSI cases that they are having to work now with no added workers, makes it a challenge and workers and supervisors are getting stressed and "burnt out". Their 174 MQB/E cases (a limited Medicaid program that only pays a client's Medicare premium) all come due once a year, December 31st. This total is added to their regular cases that come due in December also. Workers from the Family and Children's Review Team are gearing up to help get these reviews completed. Both Supervisors on this team are still carrying caseloads so work can get completed timely.

#### Food and Nutrition:

We have had an abundance of clients applying for Food and Nutrition. Some clients are leaving because they do not like to wait but when you have a large number that all come in at the same time; someone has to wait to be seen. We are also preparing to have the Work First cash workers train in this area to help with taking these applications. Their caseloads have fallen to a number where they can help in areas that have been struggling to meet compliance policies and deadlines. The review

team has had numerous phone calls for questions and request for State Hearings due to the new ABAWD policy where they will be losing their benefits in October.

#### Family and Children's Medicaid:

This team continues to keep their applications and recerts completed timely. A worker from the intake team has helped workers in Adult Medicaid get applications completed timely. Workers from the review team are preparing to help Adult Medicaid review team get their recerts completed timely for the next 3 months. This team has one vacancy.

#### **Child Support and Paralegal:**

Both Supervisors continue to help the attorney get Child Support orders completed with the vacancy of the paralegal. Interviews have been completed and recommended for hire. This team completed 417 cases for 4 days of court. They are fully staffed but still have 2 workers in training and had a worker out on maternity leave.

#### Intake/Investigation/Assessment:

The Intake/Investigation/Assessment Unit is currently full staffed, although at least two Social Workers have applied and interviewed for other positions, one within the agency and the other in another county for more money. This is Unit is currently working on correcting issues from our State Monitoring. The state standard for caseloads for this Unit is 10:1 and the current working caseload is 14.2:1.

#### **In-Home Services:**

The In-Home Services Unit is currently short-staffed, but interviews are being completed. However, another Social Worker has resigned to begin a job with Bladen County for more money. This Unit is currently working on correcting issues from our State Monitoring. The state standard for caseloads for this Unit is 10:1 and the current working caseload is 14:1.

#### **Foster Care/Adoptions:**

The Foster Care/Adoptions Unit continues to be short staffed, but interviews have been completed and recommendations made. Changes in state policy and best practice in the future will probably continue to affect the amount of children in foster care causing them to continue to rise. This Unit is currently working on correcting issues from our State Monitoring. The state standard for caseloads for this Unit are 15:1 and the current working caseload is 17:1.

#### **Adult Services:**

The Adult Services Unit is currently short-staffed and will begin interviewing as soon as possible. The Unit is currently preparing for a review that will occur later in the fall. Two Adult Family Care Homes and one Adult Day Care/Day Health have been monitored and two new Family Care Homes are currently being licensed. A new Guardianship case was received from the court after a petition. Facility complaints have significantly decreased since the new Adult Home Specialist recently began working in the Unit.

#### Work First Employment:

The Work First Employment Unit continues to attempt to work within the NCFast system. Some training, mainly on-line training, and shadowing is currently available for staff as this Unit prepares to transition into the NCFast system, although staff would benefit from more hands-on training.

#### **Child Day Care:**

The Child Day Care Unit will soon begin training as they become one of the next to transition into the NCFast system. Limited training and information and state support continues to be an obstacle for all services that are becoming a part of the system. However, so far the transition is going smoothly. This Unit is preparing for a monitoring which will occur in October.

### **Program Integrity:**

Program Integrity is working full steam ahead on big and involved cases in the county with several participants. This Unit will soon begin to prepare for Energy Assistance/Crisis Intervention which will begin soon.

Algernon McKenzie, Social Services Director, stated the following:

- 1. I have discussed with William S. Clark, County Manager, relative to staffing issues; and
- 2. We need additional staff.
